- Hobby Trend |
github.com/ShepLT1/hobby-trend |
Tools: Python, Django, Django REST
Framework, Docker, Postgres |
Role: All aspects (backend, database, API,
etc)
- 5sherpas | github.com/MVC-5/5sherpas |
5sherpas.com |
Tools: React, Node, MongoDB, Express,
Passport.js, REST APIs |
Role: User Settings front-end,
backend/database implementaion
- Breakaway | github.com/MVC-5/breakaway
| breakaway-vacay.herokuapp.com |
Tools: Node, Express, MySQL, Handelbars,
Nodemailer, Heroku |
Role: Manager Dashboard, email
notifications, database structure

LUKE SHEPHERD

FULL-STACK SOFTWARE ENGINEER

PERSONAL PROFILE

Full-Stack Software Development Engineer leveraging a background in psychology to build a more intuitive user experience on the web. Known as an innovative problem-solver with a passion for efficient back-end functionality and seamless user interfaces. Strengths in meeting deadlines, creativity and teamwork.

WORK EXPERIENCE

Full-Stack Software Engineer

Bttn Technologies | July 2021 - June 2023

- Developed & led architecture design & implementation for in-house applications & external integrations
- As project lead, designed & built a MERN-stack-based Product Information Management system (PIM) from scratch to act as source of truth for 100K+ products
- Led team to design & build a customer & order information management system backend using Django, Docker, & AWS

Patient Care Coordinator

Swedish Medical Group | Aug 2017 - April 2021

- Reduced caregiver workload by streamlining procedure coordination
- Developed the Process Improvement Committee which increased clinic satisfaction scores by 15%

EDUCATIONAL HISTORY

University of Washington Web Development Bootcamp

Full-Stack Certificate | June 2020 - Dec 2020
